Giampiero Moretti	
Abstract	
Aim of this contribution is to try to understand the enigma of the suspension (that is a material feature of a work of art) from an analysis of the film «Stalker» by A. Tarkovsky. This film is interpreted in a historical perspective, considering a particular aspect of Russian culture between 19th and 20th century: the theme of the mediumistic powers and the ghastliness the reflection and debate of Russian scientific community.	8
Giampiero Moretti is full professor of aesthetics at University of Naples «L'Orientale». He expert of German Romanticism ( L'estetica di Novalis; La segnatura romantica ; Il poe ferito. Heidegger, Hölderlin e la storia dell'essere ). He edited Italian works of Hölderlin, Klages, Novalis, Otto, Schelling, Schiller	

La sospensione spettrale. A partire da «Stalker» di Andrej Tarkovskij
